

FACE VISOR

To help protect against infections

When in contact with each other, customers or patients, protection against e.g. droplet infection is particularly important.

Face Visors provide a physical barrier which minimises the exchange of droplets between people in direct contact.

- Shields the entire face
- Anti-glare, anti-condensation and sweat resistant
- Can be thoroughly disinfected and reused
- Allows a full range of head movements
- Unlike face masks, the visors allow the wearer to breathe normally without creating condensation
- Fits all head sizes due to elastic headband
- Headband is padded for comfort
- Glass-clear visor is made from high quality plastics
- Visor can be lifted (when working at a computer for example)
- Open and remove the visor using the headband which avoids touching contagious material on the visor

FACE VISOR

To help protect against infections

Can be disinfected and reused

High quality plastic means **facial expressions are visible**

Stable headband for **stability and secure hold**

Hinge allows **visor to be lifted**

25 cm long – which protects the face and **does not restrict head movement**

White foam padding is **comfortable, retains sweat and complies with hygiene standards**

Adjustable velcro closure. **Fits the head circumference of all users** (for 52–63 cm head circumference)

Logistical Data

- Sales unit: 25 pieces in box
- Box weight: 1.7 kg
- Box dimensions: 475 × 330 × 310 mm
- Box of 25 pieces EAN: 4005546726809

- Individually packed in a bag, labelled
- Weight: 52 g incl. bag
- Dimensions (W × H × D): 190 × 250 × 220 mm
- Product EAN: 4005546726779
